CHAIRMANS REPORT (CONTINUED)

FOR THE YEAR ENDED 31 OCTOBER 2012

Chairman's Statement

I am pleased to report the results for our first full financial year since the Company's June 2011 flotation, a period which has seen strong organic and strategic growth across the Group.

Operational Growth

The Group's principal operating subsidiary, accounting for 100 per cent. of the Group's revenue, is AFH Independent Financial Services Limited ("AFH IFS"). In the year ended 31 October 2012, AFH IFS delivered an outstanding performance, increasing revenues by 34 per cent. and generating EBITDA of GBP1.2 million (before non-recurring costs), up 45 per cent. on the previous year.

Although a direct year-on-year comparison at Group level is not possible due to the corporate restructuring undertaken ahead of the Company's flotation, the Directors are pleased to report that the achievements of AFH IFS were reflected in similar levels of improved performance across the Group.

The Directors are particularly pleased with these results in light of the disruption caused by our advisers having to achieve further qualifications ahead of the Retail Distribution Review ("RDR") deadline of 31 December 2012. The delivery of such strong results in that context, whilst also seamlessly integrating a number of acquisitions, some of which were substantial, demonstrates the robustness of the Group, its advisers and its systems.

Recurring income, which is not reliant upon new business, represents half of the Group's revenue, providing the Group with a stable platform from which further growth can be delivered.

RDR

The RDR came into force on 1 January 2013 and has already changed the retail financial services landscape considerably. As anticipated, AFH is exceptionally well placed to benefit from these changes and the Directors remain confident that AFH will continue to prosper as the IFA sector contracts.

Eleven acquisitions integrated

During the period, the Group successfully completed eleven acquisitions of complementary IFA practices. The most important of these acquisitions fell in the second half of our year and have therefore not yet had a material impact on the Group's performance. A further three acquisitions were completed in December 2012.

The acquisitions completed to date have contributed significant numbers of a new advisers and clients to the Group, as well as broadening its geographic presence. AFH intends to make additional acquisitions in due course as it continues to take advantages of the opportunities arising from the RDR and ongoing economic difficulties.

During the period we have also moved to new offices of some 14,000 sq ft. The Directors believe that these new premises are more than sufficient to accommodate the significant further growth still anticipated by the Company.

Adviser numbers up 60%

Organic growth, through the recruitment of new quality IFAs, has resulted in a 60% increase to 94 advisers in the period. Since flotation I am pleased to report that adviser numbers has increased by 77%.

Maiden dividend

In light of the Group's robust operating performance and reflecting the Directors' confidence in the future, I am pleased to announce the declaration of a maiden dividend of 1p per ordinary share in respect of the year ended 31 October 2012. Subject to shareholders' approval at the forthcoming Annual General Meeting, the dividend will be paid on 10 May 2013 to shareholders on the register of members at the close of business on 12 April 2013.

Having commenced dividend payments, it is the Directors' intention that the Company will maintain a progressive dividend policy going forward.

Launch of tax efficient property fund

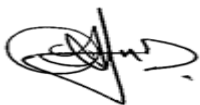

Shortly after the year end, in November 2012, the Group launched a first to market open-ended high yield fund, The St. John's High Yield Property Fund (the "Fund"), to invest up to GBP50 million in industrial, office and retail properties throughout England and Wales. The Fund is believed to be the first Property Authorised Investment Fund to be available to retail investors in the UK and is being offered to AFH clients seeking to diversify their investment portfolios and gain exposure to a low volatility asset class with yields of between 6 and 9%. The Fund has evaluated a number of opportunities since its launch and expects to complete the acquisition of the first properties for its portfolio shortly.

Outlook

For many companies, the challenges posed by the state of the economy, the demands of the RDR and the need to assimilate multiple acquisitions would have proved insurmountable. The fact that AFH has delivered excellent growth despite these challenges is testament to the strength and quality of staff across the Group and the Directors would like to thank them all for their contribution.

AFH is profitable and cash generative with a strong balance sheet. The Board views the prospects for the remainder of 2013 and beyond with confidence. Our strategy is to continue driving forward in our traditional areas of strength whilst further enhancing our offerings to drive increased profitability. The Board continues to monitor the external market place for appropriately priced acquisition opportunities which will generate incremental opportunities for the Group.

Our long term aim is to grow adviser numbers and build an outstanding IFA firm. The strong performance over the last 12 months is another important step in this direction and our proposed maiden dividend underlines our confidence in the Group's future.

FOR THE YEAR ENDED 31 OCTOBER 2012

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention.

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

1.3 Basis of consolidation

The consolidated profit and loss account and balance sheet include the financial statements of the company and its subsidiary undertakings made up to 31 October 2012. The results of subsidiaries sold or acquired are included in the profit and loss account up to, or from the date control passes. Intra-group sales and profits are eliminated fully on consolidation.

1.4 Turnover

Turnover represents commissions and fees receivable in relation to the company's role as independent financial advisors.

1.5 Goodwill

Acquired goodwill is written off in equal annual instalments over its estimated useful economic life of 20 years.

The directors are of the opinion that the goodwill arising on the creation of the new holding company to acquire the shares in AFH Group Ltd does not require amortisation. This is due to the value of the underlying investment being capable of continued measurement and no amortisation has been provided to show a true and fair view.

The carrying value of goodwill is reviewed for impairment at the end of the financial year following acquisition and in other periods if events or changes in circumstances indicate the carrying value may not be recoverable.

1.6 Research and development

Research expenditure is written off to the profit and loss account in the year in which it is incurred. Development expenditure is written off in the same way unless the directors are satisfied as to the technical, commercial and financial viability of individual projects. In this situation, the expenditure is deferred and amortised over the period during which the company is expected to benefit.

1.7 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Computer equipment	25% on reducing balance
Fixtures, fittings & equipment	20% on reducing balance

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

1.8 Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

On 30 March 2012, 25,000 ordinary shares of £0.10 each were allotted and fully paid at par as part of the consideration in the acquisition of The Arden Court Group Ltd.

On 1 August 2012, 658,500 ordinary shares of £0.10 each were allotted and fully paid at par for cash consideration to provide additional working capital.

The calculation of earnings per share is based on the profit attributable to the equity holders for the period of £201,733 and weighted average number of shares in issue during the period of 14,277,153.

The diluted earnings per share has been adjusted for the potential share issue relating to the share-based payments. The number of shares has been increased by the difference between the amount of shares that will be issued if all options are exercised and the number of shares that could be purchased for the same consideration at average market price.

The diluted earnings per share has also been adjusted for the conversion of £225,000 loan notes. The conversion will take place on 30 April 2013 at the market value of the shares at that date.

The increased number of shares for diluted earnings per share is therefore 14,778,591.
