I am pleased to report that the year ended 31 August 2016 has been another good year for Formation Group and the Company is well positioned for 2017 and the future. Group revenues have again increased on prior year results, with an uplift of 24% this year from £23.764m in 2015 to £29,410m in 2016 due to increasing revenues from professional construction services and sales at Iverson Road. It is expected that revenue will grow over the coming financial year with various large work contracts in place and additional sales on the Iverson Road development.

This year has seen a profit after tax of £2.785m (2015 £1.814m) which is an improvement in the Group's underlying financial performance. The profit from the year from discontinued operations of £1.022m relates largely to a positive write back of the loans of the properties held at Bradford and Bristol which were sold on 2 October 2015 for £3.366m.

The finance income item of £1.424m relates to income recognised from the profit share agreement entered into by Formation Group Plc as announced on the 8 July 2015 with Sunbel Development Limited ('Sunbel') and Pinacle Developments Limited ('Pinacle') in relation to a development property at Norwich House, 9-19 Streatham High Road.

The Group is now focused only on property activities which includes property development, property investment and professional construction management. Every effort is being made to source further development opportunities with the cash resources available to the Group from its participation in the recent development of Norwich House and the profits from its finished development at Iverson Road, London NW6.

The Chief Executive Officer's Report provides further detail on the individual projects, companies and properties within the Group at present.

The Group has added and will continue to add to the experienced base of construction and property personnel it has in order to meet its increasing contract commitments. It looks forward to utilising this experience to its advantage over the coming year. It is anticipated that access to future cash incomes and increased banking facilities will enable the Group to drive further improvements, increase profits and enhance shareholder value.

The Board and Staff

I would like to thank all board members and staff for the enormous efforts and dedicated contributions they have made in achieving a record year, with a significant uplift in revenues and profits for the Group. I would also like to thank our shareholders for their continued trust and confidence in the Board and in my leadership as Chairman.

The outlook for the Group is exciting and we look forward to operating a secure, profitable, capital based property group going forward and to delivering long-term, sustainable earnings growth to our shareholders.

Strategic Report

Introduction

I am delighted to report that this has been another excellent year for the Group with significant increases in revenue and profitability. The Group continues to strengthen its presence in the London property market through a profit share participation at Norwich House, in Streatham, London and the completion of the development in Iverson Road, West Hampstead with a number of the apartments being sold within the financial year.

The outlook for the Group is optimistic as the UK economy comes to terms with the impact of 'Brexit vote' in June 2016, and the directors continue to monitor market activity.

Results

The trading results for the year have continued to improve with Group revenue from continuing operations increasing to £29.410m (2015 £23.764m) due to the increased number of contracts in progress and the sales of a number of the apartments on the completed Iverson Road development. This has resulted in a pre-tax profit of £2.157m from continuing operations (2015 £2.203m).

The profit for the year from discontinued operations of £1.022m relates largely to a positive write back of the loans of the properties held at Bradford and Bristol which were sold on 2 October 2015 for £3.366m.

The audited financial statements for the year ended 31 August 2016 are set out on pages 20 to 68. The Group's result for the year after taxation was a profit of £2.785m (2015 profit of £1.814m).

Key Performance Indicators (KPIs)

Gross profit is considered to be the most meaningful KPI. Gross profit on professional services was 9.9% in the year to 31 August 2016 (2015 6.3%). Turnover has risen by 24% in 2016 to £29.410m (2015 £23.764m).

The Group's building companies are listed in the considerate contractor scheme. The Group's aim is to have a zero accident policy however, whilst the Group has an excellent safety record, during the year Formation Construction Limited had a death at one of its construction sites. The accident is currently under investigation by the Health and Safety Executive, however there is no indication at the year end that the Company was negligent in any way. The Group continues to review all of its policies and procedures to ensure that safety remains its top priority.

Staff turnover is low due to careful selection of high calibre personnel and the Group's excellent reputation continues to attract loyal and hardworking staff.

Principal activity and business review

The principal activity of the Group is the provision of professional construction management services with an increasing focus on the more profitable development/investment business as seen by the sales of some of the apartments on the completed of the Iverson Road development.

The Group continues to project manage a number of central London property developments and has been engaged to provide these project management services by companies which are defined as related parties of Formation Group Plc.

The Group has also completed the development of the Iverson Road site with profits on the sold apartments recognised in the year to 31 August 2016.

The Group has been involved in the construction project management of fifteen, mainly residential, projects during the year. All of the projects are located in Greater London. Eight of the schemes have been completed in the year with seven ongoing.

The Group has an investment and financial interest in two of the projects as follows:

Norwich House, 9-11 Streatham High Road, London SW16 1DZ

Project management and profit share participation in a development site of 103 residential units, associated car parking, 3 commercial units and the freehold interest in an adjoining apartment block. The profit share arrangement and the related accounting treatment is explained in detail in note 8. As part of its participation in the profit share, the Group advanced a loan of £2.444m.

Following the year end, the Group has received payment in full its loan and profit share with Sunbel Developments Limited.

159-161 Iverson Road, London NW6

The Group acquired this development in Formation Homes (London) Limited (Group subsidiary) in the prior financial year. The site benefited from planning approval for 19 residential units and 1 commercial unit. Construction works were completed in March 2016. The construction and project management works were financed by borrowings of £5.617m. The development was completed in March 2016 with profit on apartments sold recognised in the financial year. Further sales took place post year end which enabled the loan to be paid off as per the RNS announcement on the 9 of November, 2016.

Investment Property Retained

The Group currently has an interest in the following income producing investment properties:

52-58 Commercial Road, London E1

Rocquefort Properties Limited holds on behalf of Formation Group Plc 11 car parking spaces valued at £25,000 each, a total value of £275,000. The spaces are to be sold or let as directed by Formation Group Plc which will then receive the net proceeds.

Principal Risks and Uncertainties

Potential risks are listed below:

Potential Risks	Mitigation
<p>The Group's activities continue to be primarily based on sales to related parties. Thus, there is a risk that the related parties may choose not continue to enter into contracts with the Group, or that related party balances may become irrecoverable if the related parties do not have the ability to pay.</p>	<p>The Group's operational management continue to maintain good and fruitful relationships with the directors of the key related parties, and have regular discussions about potential opportunities. The ability of related parties to pay amounts outstanding is monitored, and payments are reviewed to ensure that they are received on a timely basis.</p>
<p>The Group's activities are concentrated in the London residential property market. This creates the risk that a downturn in the London property market will affect the levels of project management activity and the market value of the Iverson Road properties, and therefore the Group's profitability. Further uncertainty has arisen since June 2016 the post Brexit vote which has impacted the prices of high value apartments.</p>	<p>Management closely monitor activity in the property market, and assess whether selling prices are appropriate based on current market data.</p>
<p>There is a risk that the properties in the Iverson Road development do not generate the revenues expected, due to either factors specific to the development or due to a downturn in the local or national property market. This would adversely affect the Group's profitability.</p>	<p>It would appear from the sales achieved that demand for high end value apartments have dropped with some reduction in prices however management is confident that the remaining apartments would be sold.</p>
<p>The Group has recognised a significant loan and receivable in relation to the Norwich House profit share. There is a risk that the timing or amount of the cash flows received by the Group in relation to the profit share are not consistent with the assumptions made by management in the recognition of the receivable, or that amount owed to the Group is not recoverable.</p>	<p>Management are closely monitoring the progress of the Norwich House development and the recoverability of the receivable and are satisfied that the risk is being managed appropriately. This is supported by the loans repayment in full following the year end.</p>

Outlook

This year the Group delivered a significant increase in revenues. Formation Group continues to be positive that its core property construction activity remains strong and that it will be able to continue to generate substantial revenues. The Group continues to have a healthy on-going project stream that will include the final sales of the Iverson Road apartments, expected to occur during the year ending 31 August 2017. Cash due to the Group under the Norwich House profit share agreement has been received in full following the year end.

Formation Group will continue to focus on property activities, which includes property development, property investment and professional construction management. The Board intends to use the cash generated from the development at Norwich House and profits from Iverson Road to source further development opportunities.

Directors' Report

Directors' Report

The Directors present their annual report on the affairs of the Group, together with the financial statements and auditor's reports, for the year ended 31 August 2016.

Dividend

The Group has previously sought to reward shareholders by way of an annual dividend payment. In the last six years however the Group has been unable to do so.

Whilst we have further strengthened our position in this regard, we require the available cash resources to invest into the business, hence the directors, have decided not to pay shareholders a final dividend (2015 £nil). The decision will continue to be reviewed as the Group's resources and performance improves.

Financial risk management policies

As disclosed in note 19, the Group has a centralised financial risk management function which monitors and manages the financial risks relating to the operations of the Group. The primary financial risks faced by the Group are credit risk, interest risk and liquidity risk which are detailed in note 19 to the financial statements. The Board has reviewed and agreed policies for management of these risks. All of the Group's activities involve analysis, acceptance and management of some degree of risk or combination of risks.

The Group's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls and to monitor the risks and limits continually by means of reliable up-to-date systems. The Group modifies and enhances its risk management policies and systems to reflect changes in markets and products. The Audit Committee, under authority delegated by the board, formulates high level Group risk management policy and monitors risk management to allow it to review the effectiveness of the Group's risk management policies.

Staff development

The Group believes that investment in staff development and welfare builds a stronger business and will continue to make appropriate investment to further develop our team and our environment.

Throughout the year, Directors of the Group provide relevant information to employees and engage in consultation with them to ensure that their views are considered.

Disabled employees

Applications for employment by disabled persons are always fully considered, bearing in mind the aptitudes of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the Group continues and that appropriate training is arranged. It is the policy of the Group that the training, career development and promotion of disabled persons should, as far as possible, be identical with that of other employees.

Post balance sheet event

As announced on the 9th November 2016 the loan with Titlestone Real Estates on the completed Iverson Road development has been repaid in full.

Following a successful vote at a general meeting on 4 January 2017, the Company has delisted from the AIM exchange and a listing of the company's shares on the ISDX exchange was approved.

Future developments

Future developments are detailed in the strategic report.

Auditors

A resolution to re-appoint Grunberg and Co. Ltd as the Company's auditor will be proposed at the forthcoming Annual General Meeting.

Corporate Governance

Introduction

For the entirety of the financial year The Company's shares were listed on the Alternative Investment Market (AIM), however at the time of the signing of these financial statements the company has delisted from the Alternative Investment Market (AIM) and is listed on the ISDX Growth Market (ISDX). However, in respect of both listings, there are no requirements to publish a detailed Corporate Governance statement. We do not comply with the UK Corporate Governance Code, however, we have reported on our corporate governance arrangements by drawing on best practice available including those aspects of the UK Corporate Governance code we consider to be relevant to the Group.

Board of Directors

The Board currently comprises of the Non-Executive Chairman, Chief Executive Officer, the Finance Director, the Property Director and four Non-Executive Directors.

David Kennedy (Aged 39) Chief-Executive Officer

David has a background in property development and is qualified in Architecture and Town Planning which adds significant strength to the board in these areas. David also holds other directorships within property, ecommerce, education and service sectors.

William O'Dea (Aged 63) Chairman

William joined the Board on 30 of May, 2014 and was a director of Union Jack Oil plc until 30 July 2013. He is an Irish Fianna Fail politician and a Teachta Dala for the Limerick City constituency. He served as the Minister for Defence from September 2004 until 18 February 2010. William brings experience and proven leadership skills to the Company.

Noel O'Carroll (Aged 56) Property Director

Noel O'Carroll is Managing Director of the group and he is a member of the Royal Institution of Chartered Surveyors. Noel has a professional practice and contracting background, both in the UK and overseas, in civil engineering and construction.

Desmond Khan (Aged 54) Finance Director

A Fellow of the Association of Certified Chartered Accountants with vast previous experience operating within various sectors of the construction industry. Desmond joined the Group as Financial Director in 2006 of Formation Design & Build Limited and Formation Architectural Design Limited. Desmond was appointed Group Finance Director on 25 January 2010.

Michael Kennedy (Aged 73) Non-Executive Director

Michael Kennedy joined the Group in January 2005. He is a Senior Partner at the law firm Reeves Law & Co. and specialises in property law.

Patrick Kennedy (Aged 36) Non-Executive Director

Patrick has a background in property development and adds significant strength to the board in this area, holding other directorships within the property sector.

Bartholomew O'Keeffe (Aged 71) Non-Executive Director

Bartholomew is a former politician having been a member of Irish parliament and Senate from 1992 to 2011, serving in various departments, including as Minister for Enterprise, Trade and Innovation (2010 - 2011), Minister for Education and Science (2008 - 2010) and Minister of State for Housing and Urban renewal (2007 - 2008).

David Walsh (Aged 65) Non-Executive Director

David has significant experience in the construction management sector, having built a property portfolio through the purchase, development and construction of property from 1976. He acts in a professional capacity as an Agricultural Consultant, being self-employed since 1988 and having worked for the Agricultural Training Council ('ACOT') previously.

The Board meets frequently throughout the year and the Board members are in frequent contact between meetings. The Board is responsible for the overall Group strategy, reviewing trading performance, formulating policy on key areas of the business and major acquisition decisions.

In order to enable the Board to discharge its duties, all Directors have full and timely access to all relevant information. The Directors also have access to independent professional advice at the Company's expense.

The Non-Executive Directors are appointed for specific terms. All Directors are subject to election by shareholders at the first Annual General Meeting after their appointment and thereafter are required to seek re-election at least every three years.

Nominations Committee

The Board operates a Nominations Committee for the appointment of Directors. The members of the Committee are D. Kennedy (Chairman of the committee), M. Kennedy and P. Kennedy. The Nominations Committee is responsible for regularly reviewing the structure, size and composition of the Board and identifying and recommending appropriate candidates for membership of the board when vacancies arise. In considering an appointment, the Nominations Committee evaluates the balance of skills, knowledge and experience of the Board and prepares a description of the role and capabilities of a particular appointment.

Relations with shareholders

Communications with shareholders are given a high priority. There is dialogue with both institutional and private investors as well as general presentations after the interim and full year results are announced. The Company also makes available on its website (www.formationgroupplc.com) the latest Annual Report and Investor Presentation, as well as relevant announcements. The Company also responds throughout the year to numerous letters from individual shareholders on a wide range of issues on a timely basis.

All shareholders are given at least twenty one day notice of the Annual General Meeting at which Directors are available for questions.

Audit Committee

The Audit Committee monitors the adequacy of the Group's internal financial controls, accounting policies and financial reporting. It reviews the interim and full year financial statements prior to submission to the main Board. The Committee liaises with external auditors and reviews the scope of the audit and is also responsible for overseeing all matters associated with the appointment, terms, remuneration and performance of the auditors.

Non-audit work undertaken by the auditors is limited to work that requires detailed knowledge derived from the statutory audit or to work where fees involved (either individually or annually in total) are not considered to be material. In other circumstances, proposed assignments are put out to competitive tender.

The Committee is composed of D. Kennedy (Chairman of the committee), M. Kennedy and P. Kennedy. The rest of the Board also attends Audit Committee meetings by invitation.

Directors' responsibilities

A statement covering the Directors' responsibilities for preparing the financial statements is included on page 17.

Internal control

The Board has overall responsibility for the Group's system of internal control, including financial, operational and compliance controls and risk management. The Board is responsible for reviewing its overall effectiveness of internal control. The system is designed to manage rather than eliminate risk and can provide only reasonable and not absolute assurance against material misstatement or loss.

There is no formal internal audit department, as the board does not consider this to be necessary due to the size of the operations in the Group. The Board will keep this decision under review as the Group grows. Information is collated by the Board on an ongoing basis to assess the effectiveness of the system of internal control. In addition, the Board monitors the Group's significant risks continually.

Remuneration Committee

The Committee consists of the CEO and Executive Director D. Kennedy and two non-Executive Directors M. Kennedy and P. Kennedy. The Committee is chaired by D. Kennedy and its purpose is to determine the remuneration, benefits and the terms and conditions of employment of the Executive Directors. No Director plays a part in any discussion about his own remuneration.

Directors' Remuneration Report

Remuneration policy

Executive remuneration packages are designed to reflect the duties and responsibilities of that Executive, taking into account market conditions, and to ensure that the Group attracts and retains people of the highest calibre, rewarding them for enhancing value to shareholders. The performance measurement of the Executive Directors and key members of senior management and the determination of their annual remuneration package is undertaken by the Committee. Within the limits set out by the Articles of Association, the Board determines the remuneration of the Non-Executive Directors. Audited details of the Directors' remuneration are given in note 6 to the consolidated financial statements.

There are three main elements of the remuneration package for Executive Directors and senior management:

- Basic annual salary and benefits;
- Annual bonus payments and
- Share option incentives.

Basic salary

Salaries for the Executive Directors are reviewed annually with any changes taking effect from the beginning of the next financial year. In deciding appropriate levels, the Committee considers the Group as a whole and benchmarks the salary to Executives in other companies of a similar size and nature. Executive Directors' contracts of service, which include details of remuneration, will be available for inspection at the Annual General Meeting.

Annual bonus payments

The Committee establishes the objectives that must be met for each financial year if a cash bonus is to be paid.

In setting appropriate bonus parameters, the Committee benchmarks the salary to Executives in other companies of a similar size and nature, as noted above. The Committee believes that any incentive compensation awarded should be tied to interests of the Company's shareholders and that the principal measure of those interests is total shareholder return.

Directors' bonuses are based on meeting the financial targets of the Group and any relevant objectives personal to that Director.

Directors' Remuneration Report *continued*

Share options

Grants of share options are at the discretion of the Board. All grants are intended to promote a longer term involvement in the well-being of the Group and capital growth benefits for option holders. Options are not routinely granted on an annual basis but made on an individual basis to reflect performance, increased responsibilities and promotions.

The Company operates three further share option plans, the EMI plan, the unapproved plan and the Non-Executive plan. Grants of options under these plans are at market value.

Service agreements

All Executive Directors have service contracts with at least six months notice. All Non-Executive Directors have specific terms of engagement and their remuneration is determined by the Board within the limits set out in the Articles of Association and based upon independent surveys of fees paid to Non-Executive Directors of similar companies. Non-Executive Directors can participate in the Non-Executive share option scheme but are not eligible to join the Company's pension scheme.

In the case of early termination of employment, the Committee will adopt the objectives outlined in the UK Corporate Governance Code 2012.

Statement of Director's Responsibilities

Directors' responsibilities statement

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare Financial Statements for each financial year. Under that law the directors have prepared the financial statements of the Group in accordance with International Financial Reporting Standards as adopted by the European Union (IFRSs) and have elected to prepare the financial statements of the parent company in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable laws) including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs and profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' /IFRSs have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors confirm that:

- so far as each of the director is aware there is no relevant audit information of which the company's auditor is unaware; and
- the directors have taken all steps that they ought to have taken as directors to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent Auditors' Report (on the consolidated financial statements)

Report of the Independent Auditor to the members of Formation Group plc

We have audited the financial statements of Formation Group plc for the year ended 31 August 2016 which comprise the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of financial position and the parent company balance sheet, the consolidated statement of changes in equity, the consolidated statement of cash flows and the related notes. The financial reporting framework that has been applied in the preparation of the group financial statements is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union. The financial reporting framework that has been applied in the preparation of the parent company financial statements is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice) including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and Auditors

As explained more fully in the Statement of Directors Responsibilities set out on page 17, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Strategic Report and the Report of the Directors to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the parent Company's affairs as at 31 August 2016 and of the Group's profit for the year then ended;
- the Group financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union;
- the parent Company financial statements have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

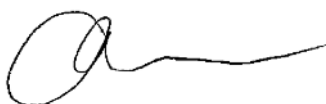

In our opinion the information given in the Strategic Report and Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Report of the Independent Auditor to the members of Formation Group plc (*continued*)

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent Company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent Company financial statements are not in agreement with the accounting records and returns; or

Notes to the Consolidated Financial Statements

General information

Formation Group PLC is a company incorporated in England and Wales under The Companies Act 2006. The address and registered office is Oakwood House, 414-422 Hackney Road, London, E2 7SY. The nature of the Group's operations and its principal activities are set out in the Directors' report on page 8.

The financial statements are presented in pounds sterling which is also the functional currency of the parent company.

The accounting policies set out below have been applied to all periods presented in the consolidated financial statements.

1. Consolidated accounting policies

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted for use by the European Union (EU) and IFRIC interpretations issued by the International Accounting Standards Board and the Companies Acts 2006.

The preparation of financial statements, in conformity with generally accepted accounting principles under IFRS, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results may ultimately differ from those estimates.

The financial statements have been prepared using the measurement bases specified by IFRS for each type of asset, liability, income and expense. The measurement bases are more fully described in the detailed accounting policies below.

Basis of preparation and going concern

The Directors have prepared working capital forecasts for the period to 28 February 2018 and as a result are satisfied the Group has sufficient resources to continue in operational existence for the next 12 months. The financial statements are therefore prepared on a going concern basis.

Basis of consolidation

The Group financial statements consolidate those of the parent company and all of its subsidiaries as of 31 August 2016. All subsidiaries have a reporting date of 31 August 2016.

All transactions and balances between Group companies are eliminated on consolidation, including unrealised gains and losses on transactions between Group companies. Where unrealised losses on intra-group sales are reversed on consolidation the underlying asset is also tested for impairment from a group perspective. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Control over a subsidiary undertaking is considered to be achieved where the company has power to direct the subsidiary's activities, exposure in rights to variable returns arising from the subsidiary's operations and the ability to use its power to direct the subsidiary's operations.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that it is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs (see note 3).

1. Significant accounting policies *continued*

Investments in joint ventures

Investments in joint ventures are accounted for using the equity method.

The carrying amount of the investment in joint ventures is increased or decreased to recognise the Group's share of the profit or loss and other comprehensive income of the associate, adjusted where necessary to ensure consistency with the accounting policies of the Group, and dividends or other returns of capital.

Unrealised gains and losses on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in those entities. Where unrealised losses are eliminated, the underlying asset is also tested for impairment.

Investment properties

Investment properties are properties held to earn rentals or for capital appreciation, or both, and are accounted for using the fair value model. Investment properties are revalued annually with resulting gains and losses recognised in profit or loss, and are included in the statement of financial position at their fair values.

Property, plant and equipment

Property, plant and equipment are stated at cost, net of depreciation and any provision for impairment. Depreciation is provided on all property, plant and equipment at rates calculated to write off the cost less estimated residual value, of each asset on a straight-line basis over its expected useful life, as follows:

Fixtures fittings and office equipment	Between 3 and 5 years
---	-----------------------

Material residual value of useful lives estimates are updated as required, but at least annually.

The gains or loss arising on the disposal of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the consolidated income statement.

1. Significant accounting policies *continued*

Taxation

The tax expense recognised in profit and loss represents the sum of the corporation tax currently payable and the deferred tax charge. The corporation tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using the rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on tax rates and laws that have been substantively enacted by the balance sheet date.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and where they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

1. Significant accounting policies *continued*

Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and that these benefits can be measured reliably. It is measured at the fair value of the consideration received or receivable for services provided, net of discounts, value added tax and excludes intra-group transactions.

Revenue for construction project management represents amounts chargeable for services provided and expenses recharged to clients. In accordance with IAS 18: Revenue, when the outcome of a transaction can be measured reliably, revenue is recognised by reference to the stage of completion of the services rendered. Where it is probable that total costs will exceed total revenue on a particular project. The expected loss is recognised as an expense. Revenue is recognised by reference to the stage of physical project completion for which the particular project management services are rendered.

Rental revenue comprises rental income receivable in the year and is recognised in the period to which it relates (discontinued operations).

1. Significant accounting policies *continued*

Leases

An operating lease is defined as a lease in which substantially all of the risks and rewards incidental to ownership of the leased asset remain with the lessor. Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term.

Share-based payments

The Group issues equity-settled share-based payments to certain employees (including directors). The fair value of these payments is calculated by the Group using the Black Scholes option pricing model. The expense is recognised on a straight line basis over the period from the date of award to the date of vesting, based on the Group's best estimate of shares that will eventually vest.

Inventories - work in progress

Work in progress is stated at the lower of cost and net realisable value, net of payments received on account. Net realisable value is based on the estimated selling price less any further costs expected to be incurred.

1. Significant accounting policies *continued*

Financial assets

The Group's financial assets are all considered to be loans and receivables.

Financial assets are assigned to the different categories by management on initial recognition, depending on the purpose for which they were acquired. The designation of financial assets is re-evaluated at every reporting date at which a choice of classification or accounting treatment is available. No financial assets are held which are categorised as at fair value through profit or loss or held to maturity investments.

All financial assets are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial assets other than those categorised as at fair value through profit or loss are recognised initially at fair value plus transaction costs.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Trade and other receivables are classified as loans and receivables. Loans and receivables are measured subsequent to initial recognition at amortised cost using the effective interest method, less provision for impairment. Any change in their value through impairment or reversal of impairment is recognised in the income statement.

Provisions against loans and receivables are made when there is objective evidence that the Group will not be able to collect all amounts due to it in accordance with the original terms of those receivables. The amount of the write-down is determined as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate.

Financial liabilities

Financial liabilities are obligations to pay cash or other financial assets and are recognised when the Group becomes a party to the contractual provisions of the instrument.

All other financial liabilities are recorded initially at fair value, net of direct issue costs. These are subsequently recorded at amortised cost using the effective interest method, with interest-related charges recognised as an expense in finance cost in the income statement. Finance charges, including premiums payable on settlement or redemption and direct issue costs, are charged to the income statement on an accruals basis using the effective interest method and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

A financial liability is derecognised only when the obligation is extinguished, that is, when the obligation is discharged or cancelled or expires.

1. Significant accounting policies *continued*

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand that is readily converted to a known amount of cash and is subject to an insignificant risk of change in value.

Financial liabilities and equity

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

Equity

Equity comprises the following:

- "Share capital" represents the nominal value of equity shares.
- "Share premium" represents the excess over nominal value of the fair value of consideration received for equity shares, net of expenses of the share issue.
- "Share option reserve" includes equity-settled share-based employee remuneration until such share options are exercised.
- "Retained earnings" represents retained earnings.
- "Capital redemption reserve" represents the nominal value of own shares acquired under a share buy back arrangement.
- "Treasury shares" represents the nominal value of treasury shares.

1. Significant accounting policies *continued*

Operating profit

Operating profit from operations is stated excluding the results of discontinued operations, finance income, finance costs and taxation.

Discontinued operations

A discontinued operation is a cash-generating unit, or a group of cash-generating units, that either has been disposed of, or is classified as held for sale, and:

- represents a separate major line of business or geographical area of operations
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- is a subsidiary acquired exclusively with a view to resale.

The disclosures for discontinued operations in the current and prior year relate to all operations that had been discontinued by the balance sheet date for the latest period presented. Where assets are classified as held for sale, these are measured at the lower of carrying value and fair value less costs to sell. Any impairment arising on the write down of assets is recognised directly in loss from discontinued operations.

1. Significant accounting policies *continued*

Significant management judgements and key sources of estimation uncertainty

Estimates and accounting judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The preparation of financial statements under IFRS requires management to make assumptions and estimates about future events. The resulting accounting estimates will, by definition, differ from the actual results.

The following are the significant management judgements in applying the accounting policies of the Group that have had the most significant effect in the financial statements. Each section also includes information about the estimates and assumptions that have the most significant effect on the recognition and measurements of assets, liabilities, income and expenses.

Norwich House profit share agreement

Management have assessed the accounting treatment of the profit share agreement and consider it to be a loan and receivable as defined by IAS 39. Further details on the accounting treatment are provided in note 8. Management have assessed the future cash flows due to the Group under the profit share agreement, both on the date of inception and at the balance sheet date. Management have also assessed the recoverability of these cash flows.

Investment properties

The Group carries its investment property at fair value, with changes in fair value being recognised in the profit and loss account. The key assumptions used to determine the fair value of the investment property are further explained in note 13 to the consolidated financial statements.

Discontinued operations

Management have assessed the activities of FG (Bradford) Limited, FG (Bristol) Limited, Formation Wealth Solutions Limited and Formation Architectural Design Limited as discontinued operations which have required consideration of the criteria set out within IFRS 5.

Revenue recognition

Recognition of construction project management revenue requires assessment of the stage of physical completion of a project in determining when to recognise revenue for services provided.

1. Significant accounting policies *continued*

Standards and interpretations

At the date of authorisation of these consolidated financial statements, the following standards and interpretations which have not been applied in these consolidated financial statements were in issue but not yet effective. All standards listed below are effective for accounting periods commencing on or after 1 January 2015.

- Amendments to IAS 19: Defined Benefit Plans: Employee Contributions.
- Annual Improvements to IFRSs 2010-2012 Cycle.
- Annual Improvements to IFRSs 2011-2013 Cycle.

The effects of the implementation of these standards have been limited to disclosure amendments.

The Group has not applied the following amendments to standards which are EU endorsed but not yet effective:

- Amendments to IFRS 11: Accounting for Acquisitions of Interest in Joint Operations.
- Amendments to IAS 1: Disclosure Initiative.
- Amendments to IAS 16 and IAS 38: Clarification of Acceptable Methods of Depreciation and Amortisation.
- Annual Improvements to IFRSs 2012-2014 Cycle.
- Amendments to IFRS10: Consolidated Financial statements.
- Amendments to IFRS 15: Revenue from contracts with customers.

The application of these standards and interpretations is not expected to have a material impact on the Group's reported financial performance or position. However, they may give rise to additional disclosures being made in the financial statements.

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of operating segments, has been identified as the Executive Directors.

Notes to the Consolidated Financial Statements *continued*

2. Segment information

For management purposes, the Group is organised into one operating segment being professional construction services:

Segment information about these businesses is presented below:

Discontinued operations

Discontinued operations in the year ended 31 August 2016 relate to sale of the developments in FG (Bradford) Limited and FG (Bristol) Limited.

The segment result from discontinued operations stated above is equal to the loss before tax from discontinued operations disclosed in note 9, which provides a reconciliation to the net loss from discontinued operations.

Geographical disclosures

All revenue and non-current assets are derived from the United Kingdom.

During the year under review, companies controlled by Impalip Private Trust Company Limited, as Trustees of the Tulip Trust and Impala Discretionary Settlement and Kennedy Private Trust Company Limited contributed 81.20% (2015 100%) of the revenue for the group. Please refer to note 23 for further details.

Revenue analysis

All revenue is generated from the rendering of services and sale of properties.

No benefits were paid to the Directors (2015 £nil). The highest paid Director has received remuneration of £0.165m.

6. Directors' remuneration, interests and transactions *continued*

Directors' emoluments

Directors' share options

Aggregate emoluments disclosed above do not include any amounts for the value of options to acquire ordinary shares in the Company granted to or held by the Directors. Details of the options are as follows, none of which have been exercised during the year:

Name of Director	Scheme	At 1 September 2015 Number	At 31 August 2016 Number	Exercise price	Date from which exercisable	Expiry Date
N. O'Carroll	Unapproved	300,000	300,000	22.75p	14/11/10	13/11/17
D. Khan	Unapproved	150,000	150,000	22.75p	14/11/10	13/11/17

The market price of the ordinary shares at 31 August 2016 was 4.125p and the range during the year was 3.75p to 12p. Share options are issued to senior executives of the Group and have performance targets relating to the Group's operating profit or EPS growth for each of the three years following the grant of the options. The Remuneration Committee believe that the use of the operating profit and EPS represents the most appropriate measures of the Group's financial performance.

Directors' interests

The Directors who held office at 31 August 2016, had the following beneficial interests in the 1p ordinary shares of the Company:

	31 August 2016 Number	31 August 2015 Number
N. O'Carroll	1,405,316	1,305,316
M. Kennedy	50,000	50,000
W. O'Dea	2,000,000	2,000,000
D. Walsh	208,000	208,000

The Directors had no other interests, beneficial or otherwise, in the shares and debentures of any Group undertaking.

Notes to the Consolidated Financial Statements *continued*

7. Tax on profit on ordinary activities

The tax charge comprises:

	Continuing operations		Discontinued operations		Total	
	2016 £'000	2015 £'000	2016 £'000	2015 £'000	2016 £'000	2015 £'000
Current tax	394	170	261	-	655	170
Deferred tax	-	-	-	-	-	-
	394	170	261	-	655	170

UK corporation tax is calculated at 20% (2015 20%) of the assessable profits for the year. The tax charge for the year can be reconciled to the profit per the consolidated income statement as follows:

	2016 £'000	2015 £'000
Profit/(Loss) before tax		
Continuing operations	2,157	2,203
Discontinued operations	1,283	(219)
	3,440	1,984
Tax at UK corporation tax rate of 20% (2015: 20%)	688	411
Tax effect of expenses/income not deductible/taxable for tax purposes	-	168
Income not taxable	-	(90)
Differences between capital allowance and depreciation	(2)	(4)
Utilisation of brought forward losses	(31)	(315)
Unreleased tax losses and other deductions within the period	-	-
Movement in unrecognised losses carried forward	-	-
Tax charge for the year	655	170

A deferred tax asset of £0.090m (2015 £0.121m) relating to tax losses has not been recognised on the basis that there is insufficient evidence that the deferred tax asset will be recoverable against future profits of the Group.

8. Finance Income

	2016 £'000	2015 £'000
Norwich House profit share	1,421	2,421
	1,421	2,421

On 8 July 2015, the Group entered into a profit share agreement with Sunbel Development Limited ('Sunbel') and Pinnacle Developments Limited ('Pinnacle') in relation to a development property at Cromer Court, 9-19 Streatham High Road, London which is being converted from office space to 98 residential units.

Under the terms of the agreement, Formation has advanced to Sunbel the sum of £2.444m to continue work on the development which commenced in June 2014. The loan attracts no coupon interest but instead Formation will be entitled to receive 40 per cent of the net profit arising on the development (i.e. the profit generated from sales of units after the repayment of debt utilised to purchase the site, the cost of development, taxation and repayment of the loan advanced by the Company).

The Norwich House profit share arrangement has been accounted for as a loan and receivable. After initial recognition, the loan and receivable is measured at amortised cost being the net present value of the expected future cash flows due to the Group under the profit share arrangement, discounted at the effective rate of interest. Any gain or loss arising from the movement in the loan and receivable is recognised in finance income or cost, less provision for impairment.

During the year, the Group provided for the balance of the funds due under the agreement £1,486m. This was adjusted to £1.424m after allowing for conveyancing costs from the sale of four Norwich House apartments.

David Kennedy and Patrick Kennedy, Chief Executive and Non-executive director of Formation respectively, are directors of both Sunbel and Pinnacle and thus the agreement is considered to be a transaction with a related party under the Aim Rules for Companies. The directors of Formation, other than David Kennedy and Patrick Kennedy, having consulted the Company's nominated adviser Northland Capital Partners Limited, consider that the terms of the transaction are fair and reasonable insofar as shareholders are concerned.

The total amounts due by Sunbel Development Limited were repaid in full following the year end.

9. Discontinued operations

Discontinued operations relate to proceeds received on investment properties, which were disposed of in the year by FG (Bradford) Limited, FG (Bristol) Limited. Additionally, the non-trading activities of Formation Wealth Solutions Limited and Formation Architectural Design Limited are also included as part of discontinued operations.

Results of discontinued operations

The results of the discontinued operations which have been included in the consolidated income statement, were as follows:

	2016 £'000	2015 £'000
Revenue	6	234
Cost of sales	(10)	(104)
Gross (loss)/profit	(4)	130

The investment properties had previously been secured by Dunbar Assets Plc under non-recourse financing.

The effect of discontinued operations on segment results is disclosed in note 2.

As previously announced the Investment properties held in Formation Group plc 100% owned subsidiaries FG (Bradford) Limited and FG (Bristol) Limited were handed back to Dunbar Assets plc in late 2013 with a view to dispose of the properties. Formation Group Plc is pleased to announce that the sale has now been completed on the 2 October, 2015 for £3.366m with a positive write back of £1.054m on the loans secured against these properties by Dunbar Assets Plc. In addition, it was agreed with Dunbar Assets Plc that should a Corporation tax charge be triggered by the disposals, this would be covered by them. As a result, finance income also includes an amount of £0.261m relating to amounts due from Dunbar in the form of a Corporation Tax reimbursement.

13. Investments

(i) Equity method - Investment in JV Finance Limited	2016 £'000	2015 £'000
Brought forward	-	4,648
Monies received	-	(4,638)
Impairment	-	(10)
	-	-

In the year ending 31 August 2010, Formation Group PLC, in partnership with JV Finance Limited, contributed through JV Finance Ventures Limited, a combined sum of £18.2m, (Formation Group Plc's contribution of £6.7m on terms as announced on 2 September 2010) in order to settle with both Heritable Bank Plc's administrator and outstanding creditors, in order to secure the Aldgate site and the necessary warranties for completed construction works.

Formation Group Plc's percentage shareholding in JV Finance Ventures Limited was 36.88% and was based on Formation's percentage share of long term loans in JV Finance Ventures Limited of £6.7m. On the basis that the loans were repayable in 10 years' time and the percentage of the loan directly affected the shareholding, the loans were treated as an investment in an associated undertaking and accounted for under the equity method. Accordingly, the investment in JV Finance Ventures Limited was adjusted to the anticipated fair value of the sales proceeds less costs to sell. The fair value was based on the present value of the anticipated future cash flows due within one year.

The underlying activity of JV Finance Ventures Limited has now ceased and the movement in the prior year therefore represents cash payments that have been received by Formation Group plc from JV Finance Ventures Limited against the brought forward carrying value. Cash of £4.638m was received in the prior year from the joint venture.

(ii) Investment property - Car parking spaces 52-58 Commercial Road	2016 £'000	2015 £'000
Brought forward	275	275
Additions	-	-
	275	275

Rocquefort Properties Limited owed the Group an outstanding sum of £0.275m as announced on 14 February 2014. In settlement thereof it now holds in trust for Formation Group Plc, 11 car parking spaces valued at £0.025m each. On 10 October 2014, a charge was put in place over the 11 car parking spaces in respect of a loan facility granted to Rocquefort Properties Limited.

14. Inventories

	2016 £'000	2015 £'000
Work in progress & stock of properties	7,245	10,387

The inventory is held at the lower of cost and net realisable value. There have been no write down of inventories or amounts recognised in the income statement during the year.

Work in progress relates to costs pertaining to the completed development of the 161 Iverson Road site of £7.245m (2015 £10.387m). The properties are in the process of being sold.

Loan receivable Norwich House profit share	4,787	2,886
Other receivables and prepayments	643	781
	9,888	5,820

Please refer to note 8 for details of Norwich House the profit share agreement and accounting treatment.

No interest is charged on any trade receivables that are overdue.

Other receivables and prepayments mainly relates to prepaid expenses and vat receivable incurred as part of the group's continuing operations. Additionally, it includes an amount due from Dunbar Assets Plc. in relation to amounts in due in Corporation Tax.

Before accepting any new customer, the Group assesses the potential customer's credit quality. Credit risk is managed on a regular basis in order to minimise the exposure by reviewing adherence to settlement terms.

In determining the recoverability of any trade receivables, the Group considers any change in the credit quality of the trade receivables from the date credit was initially granted up to the end of the accounting period.

The ageing of trade receivables was as follows:

	2016 £'000	2015 £'000
Current	4,068	2,101
Past due but not impaired:		
0-30 days	-	-
30-60 days	-	-
60-90 days	183	39
> 90 days	207	-
Past due and impaired:		
> 90 days	-	13
	4,458	2,153

Of the trade receivables 100% (2015 98%) are neither past due or impaired and considered to be fully recoverable.

No allowance for bad and doubtful has been made in the year.

On demand or within one year	3,314	9,963

The weighted average interest rates paid were as follows:

	2016 %	2015 %
Bank loan	7	7

(i) FG (Bradford) Limited & FG (Bristol) Limited loans of £4.346m were secured on the developments in FG (Bradford) Limited and FG (Bristol) Limited. These loans were repaid as detailed in note 9.

(ii) The Formation Homes (London) Limited loan of £3.314m is secured on the completed development at 159-161 Iverson Road. This loan was repaid post year end as per the RNS announced on the 9 November 2016.

19. Financial instruments

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instruments are disclosed in note 1 of these financial statements.

(a) Categories of financial instruments

	2016 £'000	2015 £'000

(b) Financial risk management objectives

The Group has a centralised financial risk management function which monitors and manages the financial risks relating to the operations of the Group. The primary risks faced by the Group are credit risk, interest risk and liquidity risk. The Board has reviewed and agreed policies for management of this risk. All of the Group's activities involve analysis, acceptance and management of some degree of risk or combination of risks.

The Group's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls and to monitor the risks and limits continually by means of reliable up-to-date systems. The Group modifies and enhances its risk management policies and systems to reflect changes in markets and products. The Audit Committee, under authority delegated by the board, formulates high level Group risk management policy and monitors risk management to allow it to review the effectiveness of the Group's risk management policies.

(c) Capital risk management

The capital structure of the Group is presented in the statement of financial position and includes equity cash and borrowings. The statement of changes in equity provides details of equity and note 18 provides details of bank loans and overdrafts. Short term funding requirements are provided by a bank loan. The objectives when managing capital are to safeguard its ability to continue as a going concern and have access to adequate funding for business opportunities, so that it can provide returns for shareholders and benefits for other stakeholders. The Group manages its capital structure and makes adjustment in the light of changes in economic conditions and risk characteristics of the underlying assets. In order to maintain or adjust the capital structure the Group may issue new shares or draw down debt.

The Group maintains sufficient cash levels to enable it to meet its liabilities as they fall due. Management review cash flow forecasts on a regular basis to determine whether the group has sufficient cash reserves to meet future working capital requirements, financing obligations and to take advantage of business opportunities. In reviewing cash flows and identifying the need for further funds, management consider the nature of cash flow requirements and take appropriate action.

19. Financial instruments *continued*

(d) Finance and interest rate risk

The Group finances its operations through is cash and cash equivalents, and through its bank loans. The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

The weighted average interest rates paid were as follows:

	2016 %	2015 %
Bank loans	7	7

At 31 August 2016, it is estimated that a general increase of 1% in interest rates would reduce the Group's profit before tax and its equity by approximately £0.033m (2015 £0.09m).

(e) Credit risk management

Credit risk is the risk that financial loss arises from the failure of a customer or counterparty to meet its obligations under a contract. The Group has dedicated standards, policies and procedures to control and monitor all such risks. Although the Group is potentially exposed to credit loss in the event of non-performance by counterparties, such credit risk is controlled through reviews of counterparties and limiting the exposure to any single counterparty.

The Group only transacts with entities that have a good credit rating. Customer debtor balances are monitored on an ongoing basis and provision is made for estimated irrecoverable amounts.

The maximum amount of exposure to credit risk at the year-end is £4.458m (2015 £2.153m).

19. Financial instruments *continued*

(f) Liquidity risk management

The Group has managed its cash in a manner designed to ensure maximum benefit is gained, whilst ensuring security of investment sources. The Group's policy on investment of surplus funds limits the placing of deposits to institutions with strong credit ratings.

The Group manages liquidity risk by maintaining adequate working capital facilities it is able to draw on and by continuously monitoring forecast and actual cash flows.

The following table details the Group's remaining contractual maturity of its non derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay the liability.

At 31 August 2016, the Group's non-derivative financial liabilities have contractual maturities (including interest payments where applicable) as summarised below:

Notes to the Company Financial Statements

Basis of preparation

The accounts have been prepared in accordance with the Companies Act 2006 and the Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and the Republic of Ireland under the historical cost convention. As permitted by the Companies Act 2006, no separate profit and loss account has been presented in respect of the Company. Formation Group Plc reported a profit for the financial year of £0.932m (2015 £2.106m).

The consolidated financial statements of Formation Group Plc, which are presented separately, have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union.

The financial statements are prepared in pounds sterling which is the functional currency of the entity.

The address and registered office is Oakwood House, 414-422 Hackney Road, London, E2 7SY. The nature of the Group's operations and its principal activities are set out in the Strategic report on page 3.

Basis of preparation and going concern

The Directors have prepared working capital forecasts for the period to 28 February 2018. The ability of the Group to continue trading as a going concern is dependent on the continuing income streams from existing, new contracts and property development.

Nevertheless, after making enquiries, and considering the uncertainties described above, the directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. For these reasons, they continue to adopt the going concern basis in preparing the annual report and accounts.

1. Principal accounting policies

The principal applicable accounting policies applied under FRS102 are summarised below. They have all been applied consistently throughout both the current and prior years.

Tangible fixed assets

Tangible fixed assets are stated at cost, net of depreciation and any provision for impairment. Depreciation is provided on tangible fixed assets at rates calculated to write off the cost less estimated residual value, of each asset on a straight-line basis over its expected useful life, as follows:

Fixtures fittings and Office Equipment	Over three years
---	------------------

Material residual value of useful lives estimates are updated as required, but at least annually.

The gains or loss arising on the disposal of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the consolidated income statement.

Intangible assets

Trademarks are included at cost and depreciated in equal annual instalments over a period of ten years which is their estimated useful economic life. Provision is made for any impairment.

Investment in subsidiaries

Fixed asset investments are accounted for at cost less provision for impairment.

Investment properties

Investment properties are shown at fair value and any changes in fair value are recognised in the income statement.

Deferred tax is recognised on the timing differences that have originated due to any fair value gains recognised through the income statement.

Taxation

Current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is recognised in respect of the retained earnings of overseas subsidiaries and associates only to the extent that, at the balance sheet date, dividends have been accrued as receivable or a binding agreement to distribute past earnings in future has been entered into by the subsidiary or associate.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

Operating leases

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term, except where the period to the review date on which the rent is first expected to be adjusted to the prevailing market rate is shorter than the full lease term, in which case the shorter period is used.

Classification as equity or financial liability

Management have assessed the accounting treatment of the profit share and consider it to be a loan and receivable. Further details on the accounting treatment are provided in note 8 of the Group financial statements. Management have assessed the future cash flows due to the company under the profit share agreement, both at the date of inception and at the balance sheet date. Management have also assessed the recoverability of these cash flows.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into.

A financial liability exists where there is a contractual obligation to deliver cash or another financial asset to another entity, or to exchange financial assets or financial liabilities under potentially unfavourable conditions. In addition, contracts which result in the entity delivering a variable number of its own equity instruments are financial liabilities. Shares containing such obligations are classified as financial liabilities.

Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. The carrying amount of the liability is increased by the finance cost and reduced by payments made in respect of that liability. Finance costs are calculated so as to produce a constant rate of charge on the outstanding liability.

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Dividends and distributions relating to equity instruments are debited directly to reserves.

Share-based payments

The Company issues equity-settled share-based payments to certain employees (including Directors) of the parent company. The fair value of these payments is calculated by the Company using the Black Scholes option pricing model. The expense is recognised on a straight-line basis over the period from the date of award to the date of vesting, based on the Company's best estimate of shares that will eventually vest.

Financial assets

The Company's financial assets are all considered to be debtors. Financial assets are assigned to the different categories by management on initial recognition, depending on the purpose for which they were acquired. The designation of financial assets is re-evaluated at every reporting date at which a choice of classification or accounting treatment is available. No financial assets are held which are categorised as at fair value through profit or loss or held to maturity investments.

All financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets other than those categorised as at fair value through profit or loss are recognised initially at fair value plus transaction costs.

Other debtors are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Trade and other receivables are classified as loans and receivables. Other debtors are measured subsequent to initial recognition at amortised cost using the effective interest method, less provision for impairment. Any change in their value through impairment or reversal of impairment is recognised in the income statement.

Provisions against other debtors are made when there is objective evidence that the Company will not be able to collect all amounts due to it in accordance with the original terms of those receivables. The amount of the write-down is determined as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate.

Financial liabilities

Financial liabilities are obligations to pay cash or other financial assets and are recognised when the Company becomes a party to the contractual provisions of the instrument. All other financial liabilities are recorded initially at fair value, net of direct issue costs. These are subsequently recorded at amortised cost using the effective interest method, with interest-related charges recognised as an expense in finance cost in the income statement. Finance charges, including premiums payable on settlement or redemption and direct issue costs, are charged to the income statement on an accruals basis using the effective interest method and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

A financial liability is derecognised only when the obligation is extinguished, that is, when the obligation is discharged or cancelled or expires.

Provisions for liabilities

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

Where the effect of the time value of money is material, the amount expected to be required to settle the obligation is recognised at present value using a pre-tax discount rate. The unwinding of the discount is recognised as a finance cost in profit or loss in the period it arises.

Significant judgements and estimates

The preparation of the financial statements require management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year.

The items in the financial statements where these judgements and estimates have been made include: The Company carries its investment property at fair value, with changes in fair value being recognised in the profit and loss account. The key assumptions used to determine the fair value of the investment property are further explained in note 13 to the consolidated financial statements.

Notes to the Company Financial Statements *continued*

Management have assessed the accounting treatment of the profit share agreement and consider it to debtor as defined by FRS102. Further details on the accounting treatment are provided in note 8 too the consolidated financial statements. Management have assessed the future cash flows due to the Group under the profit share agreement, both on the date of inception and at the balance sheet date. Management have also assessed the recoverability of these cash flows.

In the year ending 31 August 2010, Formation Group Plc, in partnership with JV Finance Limited, contributed through JV Finance Ventures Limited, a combined sum of £18.2m, (Formation Group Plc's contribution of £6.7m on terms as announced on 2 September 2010) in order to settle with both Heritable Bank Plc's administrator and outstanding creditors, in order to secure the Aldgate site and the necessary warranties for completed construction works. Formation Group Plc's percentage shareholding in JV Finance Ventures Limited was 36.88% and was based on Formation's percentage share of long term loans in JV Finance Ventures Limited of £6.7m. On the basis that the loans were repayable in 10 year's time and the percentage of the loan directly affected the shareholding, the loans were treated as an investment in an associated undertaking and accounted for under the equity method. Accordingly, the investment in JV Finance Ventures Limited was adjusted to the anticipated fair value of the sales proceeds less costs to sell. The fair value was based on the present value of the anticipated future cash flows due within one year.

The underlying activity of JV Finance Ventures Limited has now ceased and the movement in the prior year therefore represents cash payments that have been received by Formation Group plc from JV Finance Ventures Limited against the brought forward carrying value. Cash of £4.638m was received in the prior year from the joint venture.

11. Post balance sheet event

On the 4th of January, 2017 a vote was passed at a general meeting held of Formation office authorising delisting from the Alternative Investment Market (AIM) and listing on the ISDX growth market.

12. First year adoption

These are the first financial statements that comply with FRS102. The company transitioned to FRS102 on 1 September 2014.

No material transitional adjustments were required in equity or profit and loss for the year.
